Order and Start CSM Trial

Last Modified

To get new CSM environment you need to make and order from Centero Customer Portal. After CSM environment is created you will receive an email containing environment information and instructions how to continue to implementation.

1. Log in (when you already have an account or register to create a new account) to Centero Customer Portal

2. Verify and change if required, the customer where Centero Customer Portal is connected to and where new CSM environment will be created

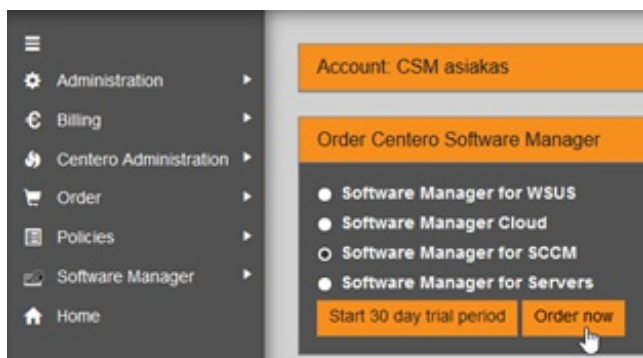

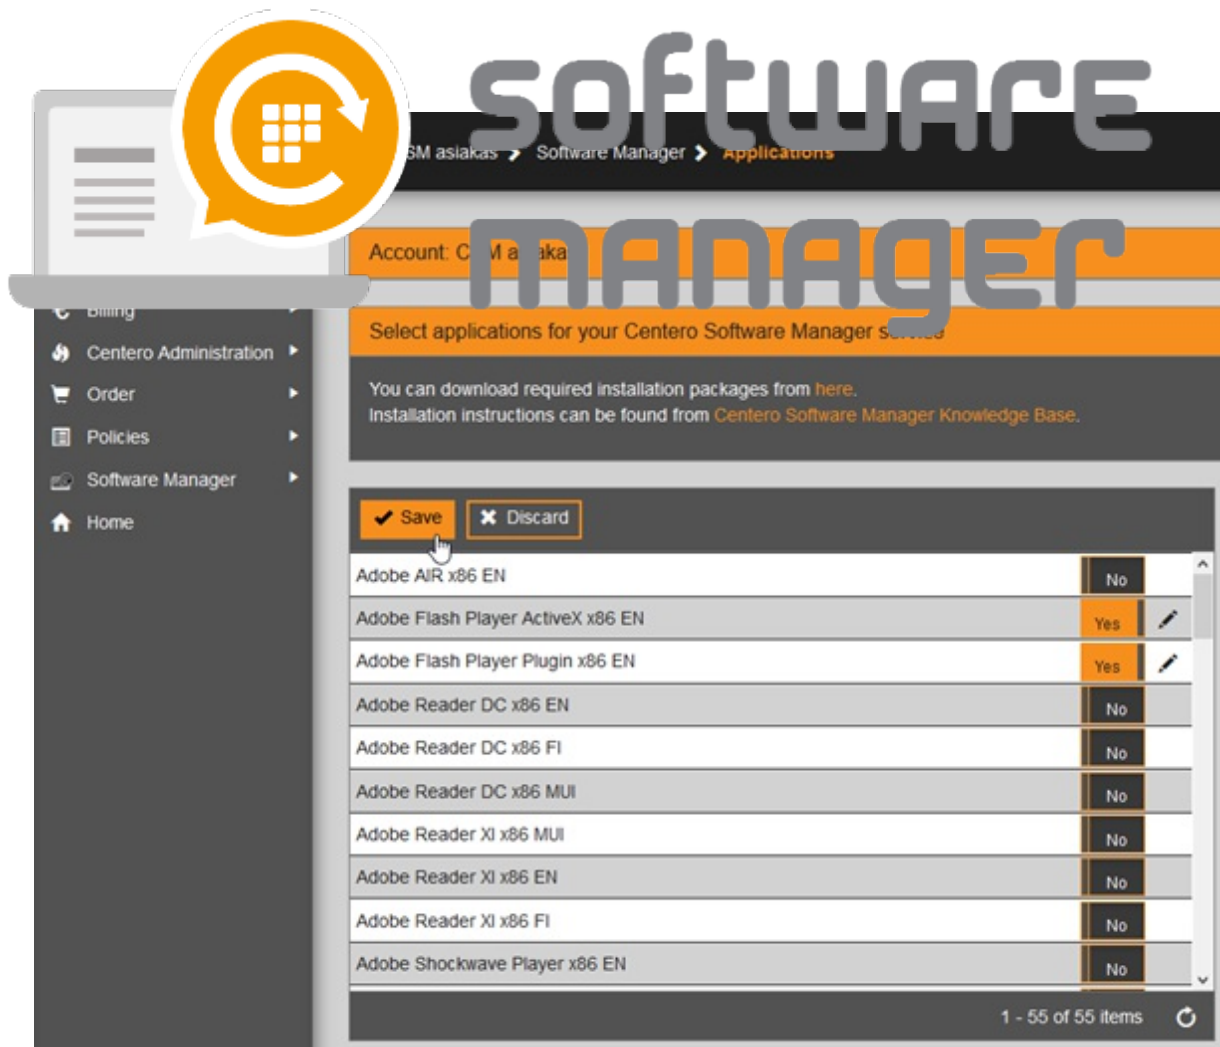

3. Select 'Order\Centero Software Manager' from menu

4. Select what CSM product you want to order or start the trial

5. Confirm the order or trial by clicking 'Yes'

6. Your browser will be redirected to 'Software Manager\Applications' page where you can enable the applications that you want to be included to your CSM environment. Limited amount of applications is available in the trial phase. Click 'Save' button when you have selected the applications.

7. You will recieve an email containing required information (including credentials when applicable) to implement new CSM environment. Instruction for implementation can be found from here: Implementation
