

# Enable CSM for MECM Integration

Last Modified on 21/10/2022 10:19 am EEST

After Centero Software Manager is [installed](#), [configured properly](#) and necessary [deployment processes](#) are created, you can enable the MECM integration. Enable the integration from **MECM Integration** -> **MECM Settings** -> **MECM Integration** view and select **Enabled** and **Apply**

You can track import statuses from [Software tab](#)
