

# Grant Global Administrator to Azure AD Software Manager

Last Modified

If you do not have a Global Administrator role assigned and someone else will consent the applications on your behalf, please follow these [instructions](#) instead.

1. Go to <https://preview.portal.centero.fi> and then navigate to Services -> CSM for Intune -> Service Status.

2. The steps 3 and 4 provide consent links for necessary Azure AD Enterprise Applications. If you have a Global Admin role for your Azure AD tenant proceed to step 3.

If you do not have Global Admin role, then send out instructions from step 4 to your Azure AD tenant Global Admin.

CSM for Intune (Preview) Status			
Step	Status	Instructions	Manage
1. Environment prerequisites checked		?	
2. Supported applications selected	✗		⚙️
3. Centero Azure AD Connector application configured		?	➔
4. CSM for Intune application configured		?	➔
5. Azure tenant linked to Centero Portal	✗	?	⚙️
6. Deployment processes created	✗	?	⚙️
7. Scheduled deployments created	✗		⚙️
8. Applications created to Intune			
9. Applications deployed to workstations			

# SOFTWARE MANAGER

For u Admin role

3. Click on the  new tab will open

4. Login with a global administrator account and consent the permissions.

### Permissions requested

## Accept for your organization

 Centro Azure AD Connector  
[centero.fi](https://centero.fi)

This app would like to:

- ✓ Read directory data
- ✓ Sign in and read user profile

If you accept, this app will get access to the specified resources for all users in your organization. No one else will be prompted to review these permissions.

Accepting these permissions means that you allow this app to use your data as specified in their terms of service and privacy statement. **The publisher has not provided links to their terms for you to review.** You can change these permissions at <https://myapps.microsoft.com>. [Show details](#)

5. Click on the  and a new tab will open.

6. Login with a global administrator account and consent the
