

# Grant Access to Azure AD

Last Modified on 19/04/2022 11:09 am EEST

If you do not have a Global Administrator role to Azure AD and someone else will consent the applications on your behalf, or you are MSP, please follow these [instructions](#) instead.

1. Go to our portal <https://preview.portal.centero.fi> and then navigate to **Services -> CSM for Intune -> Service Status** page.

□

2. The steps 3 and 4 contain consent links for necessary Azure AD Enterprise Applications in **manage** column. If you have a Global Admin role for your Azure AD tenant proceed to step 3.

If you do not have Global Admin role, then send out instructions from step 4 to your Azure AD tenant Global Admin.

## For users who have Global Admin role

3. Click on the icon in manage column in **3. Centero Azure AD Connector application configured** row and a new tab will open

4. Login with a global administrator account and consent the permissions

□

5. Click on the icon in manage column in **4. CSM for Intune application configured** row and a new tab will open

6. Login with a global administrator account and consent the permissions

□

7. Continue with the installation by following the steps in [Service status](#) page. The next step is to [Link Tenant](#)  
With CSM for Intune
