

# Software Manager

## Deployment Process

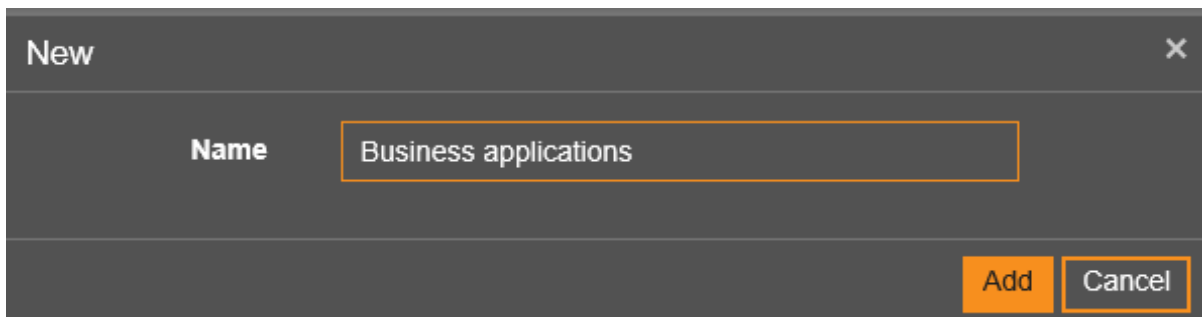

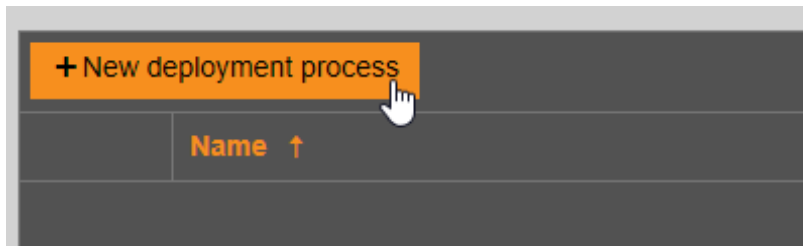

Creation

Last Modified

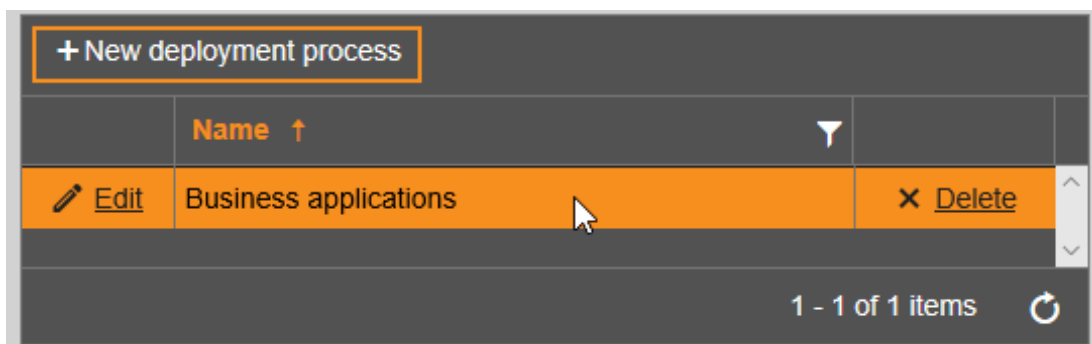

1. Navigate to <https://preview.portal.centero.fr> and then go to Services -> CSM for Intune -> Administration -> Deployment processes.

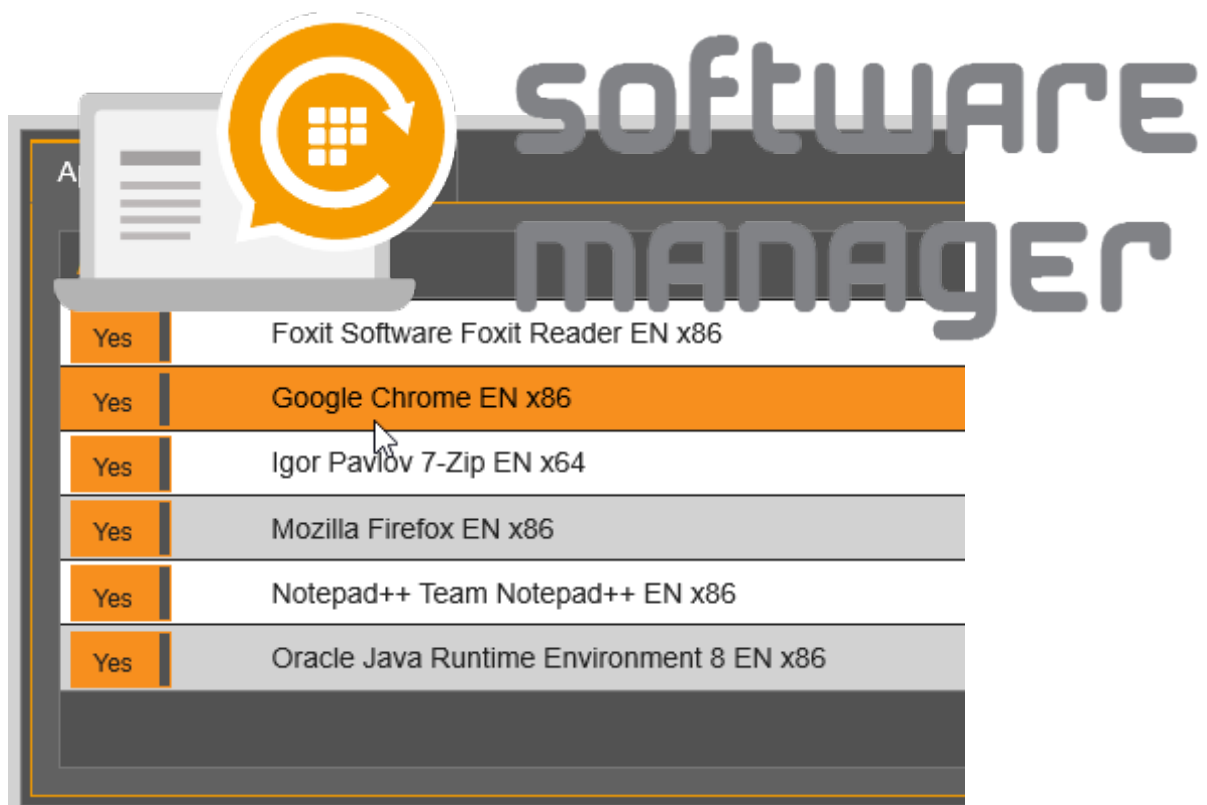

2. Choose New deployment process, name it and choose Add.

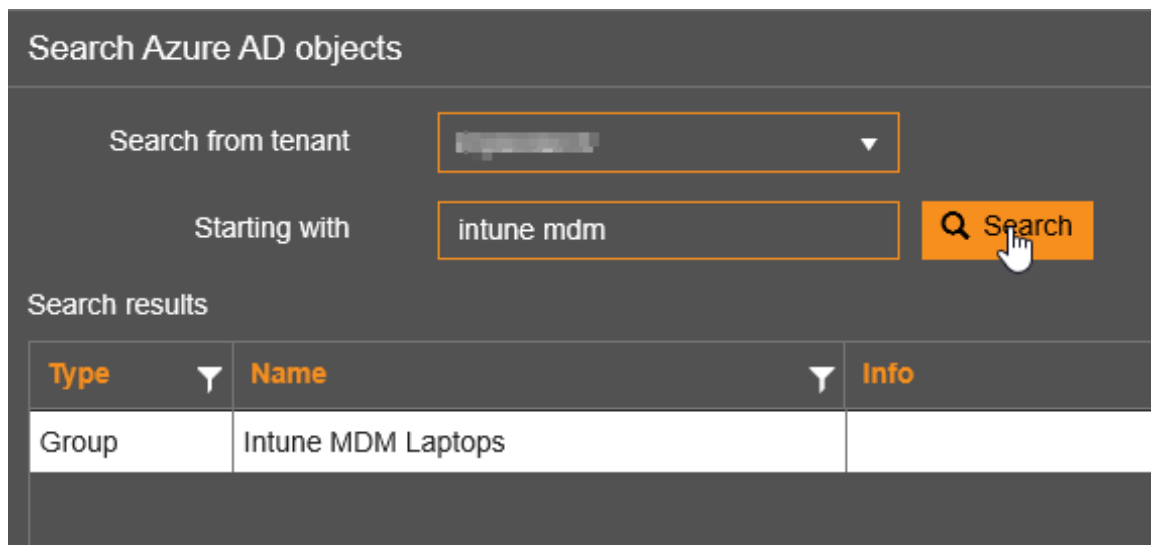

3. Select the newly created deployment process and choose the applications

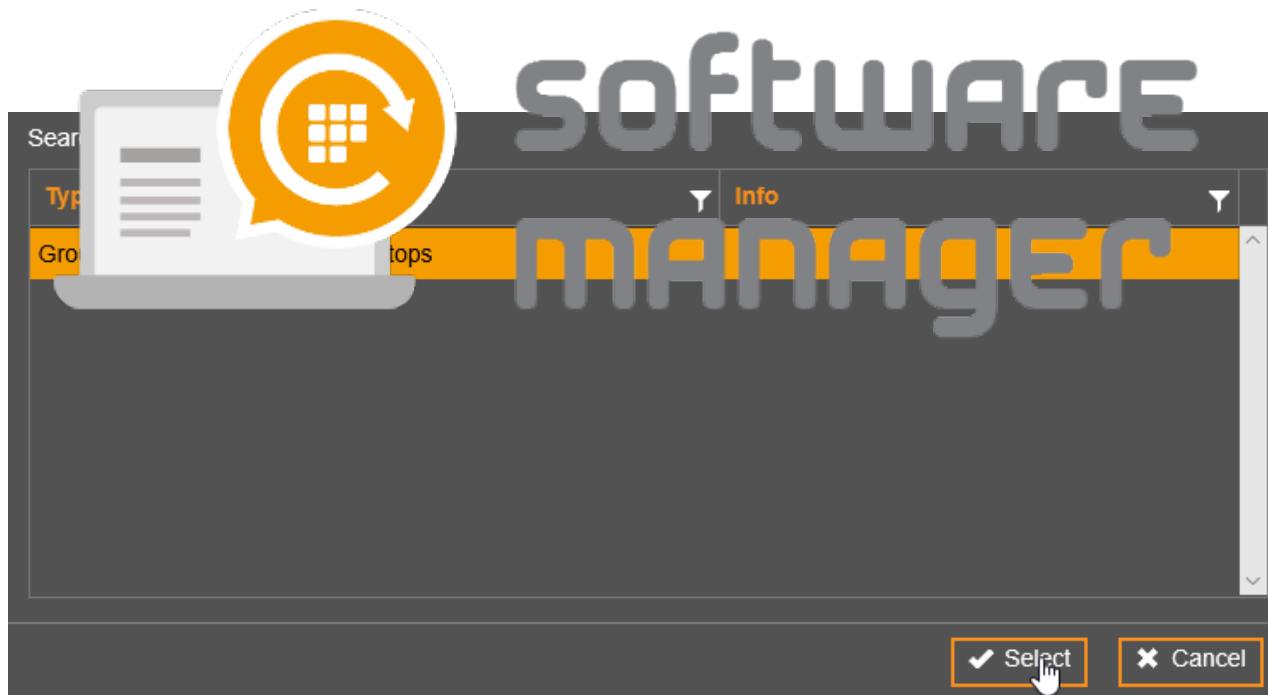

4. Choose the application to be used in the deployment process and then choose Deployments.

5. Choose Add Group, select the used tenant and search for the group wanted.

6. Select the group and confirm the selection.

7. The portal now prompts for configuration to be set up. Choose the desired configuration for the newly added Azure AD group in the deployment process and choose Add. Repeat this step with desired Azure AD group and configuration if you wish to add different stages for the deployment process for testing e.g.

**Wait time** is the number of working days for how long the deployment is deferred after a new version of an application has been published.

**Notification to** is an email address or addresses where notifications should be delivered. The notifications occur when a new applications is published and when the deployment for it is created.

**Toast notification** delivery can be selected from 3 options: show all, show only when restart needed and hide all.

 A screenshot of a 'New' configuration dialog box. The title bar says 'New' and has a close button (X). The dialog contains the following fields:
 

- Group:** Intune MDM Laptops
- Wait (working days):** A text input field containing the number '0'.
- Notification to:** An empty text input field.
- Toast notification:** A dropdown menu with a downward arrow icon.

 At the bottom right, there are two buttons: 'Add' (highlighted in orange) and 'Cancel'.

The image shows a software management interface. At the top, there is a logo with a grid and a refresh arrow, and the text "SOFTWARE MANAGER". Below this is a table with the following columns: #, Tenant, Group, Wait (work...), Notification, and Toast notification. The table contains one row with the following data: # 1, Tenant [redacted], Group Intune MDM Laptops, Wait (work...) 0, Notification, and Toast notification Show all. There is an "Edit" icon on the left and a "Delete" icon on the right of the row. Below the table, it says "1 - 1 of 1 items" with a refresh icon. Underneath, there is a section titled "Calculated deployment creation times (if selected application published now)" with a sub-table with columns Date, Group, and Tenant. The sub-table contains one row with the following data: Date 14.10.2019 12:12, Group Intune MDM Laptops, and Tenant [redacted].

#	Tenant	Group	Wait (work...)	Notification	Toast notification
1	[redacted]	Intune MDM Laptops	0		Show all

1 - 1 of 1 items

Calculated deployment creation times (if selected application published now)

Date	Group	Tenant
14.10.2019 12:12	Intune MDM Laptops	[redacted]

8. If you wish to create all the deployments to Intune right away choose Start deployment now.
