If the Service is terminated, or if individual applications are removed from the Service, the Customer's content will not be deleted from the Service. On the Customer's request, the content can be anonymized to the extent it's possible. When the Service has been terminated, this content will be used in analyzing the Service and developing it, as described in the Centero Software Manager Privacy Policy. For the extent the Customer's content cannot be anonymized, it will be deleted completely.
