CSM for Partners

Last Modified:

CSM for Partners is a procurement model designed for IT service providers, allowing the service providers to offer CSM products for their customers with a consistent pricing model. The model requires a separate agreement between the Customer and the Provider.

The CSM for Partners procurement model includes user rights to the following CSM products:

- CSM Cloud

- CSM for Intune

- CSM for SCCM

- CSM for WSUS

- CSM for Servers

Trial or Preview Use is not possible in CSM for Partners model.
